Field Cables on Soviet Travelers

ACTION REQUIRED - REFERENCES

REF: DIR-57673, October 1964

1. The requirement to cable Soviet travel, levied in Book Cable DIR-57673 of October 1964, is herewith rescinded. Headquarters appreciates the field response to that emergency measure.

2. Certain categories of Soviet travel should, however, continue to be cabled to Headquarters in order that traces and/or operational comments could be sent back to the field on a timely basis. Timeliness is one of the governing factors in deciding whether or not to cable; cabling after the fact tends to be a waste of your manpower and cable facilities unless a clearly identifiable Soviet Target personality is involved. Names and biographic data on Soviets falling into the categories listed below should be cabled whenever you obtain advance notice of intended travel or when the Soviet has already arrived but is staying long enough to permit us to send traces and operational comments before he leaves. Categories of particular interest to Headquarters are set forth below.

3. **TRE-TRAVELERS:** Names of Soviets on TRE, members of delegations and other travelers should be cabled if, given the time factors above, they fall within the following groups:

- Known or suspect RIS personnel;
- Known or suspect audio technicians;
- Scientific and technical personnel (ANVIR, see Book Dispatch No. 4366, 14 May 1964);
- High-level governmental figures; VIP-s and their entire entourage;
- Diplomatic personnel from Ambassador down to and including First Secretary on a visit to your country; also, a senior Commercial Representative;
- Members, alternate members and Auditing Commission members of the Central Committee (a list is attached);

- a. The known or suspect KGB or GRU Resident;
